APECS is an international and interdisciplinary organization for undergraduate and graduate students, postdoctoral researchers, early faculty members, educators and others with interests in Polar Regions and the wider cryosphere. Our aims are to stimulate interdisciplinary and international research collaborations, and develop effective future leaders in polar research, education and outreach. We seek to achieve these aims by:

- Facilitating international and interdisciplinary networking to share ideas and experiences and to develop new research directions and collaborations;
- Providing opportunities for professional career development; and
- Promoting education and outreach as an integral component of polar research and to stimulate future generations of polar researchers.

Join us to celebrate the 1 December 1959 signature of the Antarctic Treaty, which was adopted with the interests of science and the progress of all mankind.

This workshop is a great opportunity to present your research interests to other Polar Early Career Scientists in Belgium and more importantly to get to know each other.

Furthermore we would like your ideas on making APECS Belgium a success and to make the upcoming Antarctic Treaty Meeting 2013 in Belgium unforgettable.

Guidelines for Digital Poster session

1. Select one of your poster that is representative for your research (no need to make a new one).
2. Send a PDF copy to the organisers.
3. Present yourself and your research in 5 minutes.
4. No time for questions!!!
5. Ask your questions during lunch
